

Job Descriptions for Full Stack Developer, iOS Developer, and Android Developer

1 Full Stack Developer

Location: Bangalore Office

Internship: Full-Time

Eligibility: Pursuing M.E./M.Tech in Computer Science, Information Technology, Software Engineering, or related fields

Job Description:

We are looking for a **Full Stack Developer** to join our team, responsible for developing scalable web applications. The candidate will work on both frontend and backend technologies, ensuring seamless integration and user experience.

Key Responsibilities:

- Develop, test, and deploy web applications using **React, Angular, or Vue.js (Frontend)** and **Node.js, Django, or Spring Boot (Backend)**.
- Work with **databases** such as MySQL, PostgreSQL, or MongoDB.
- Implement **RESTful APIs** and integrate third-party services.
- Optimize application performance and security.
- Work in an **Agile development environment** with version control (Git).

Required Skills:

Proficiency in **HTML, CSS, JavaScript, and modern JS frameworks**.

Strong knowledge of **backend languages** like **Node.js, Python, Java, or PHP**.

Experience with **databases** (SQL & NoSQL).

Understanding of **cloud services** (AWS, Azure, or Firebase) is a plus.

Familiarity with **DevOps tools, CI/CD, and Docker** is advantageous.

2 iOS Developer

Location: Bangalore office

Internship: Full-Time

Eligibility: Pursuing M.E./M.Tech in Computer Science, Information Technology, or relevant disciplines

Job Description:

We are seeking an **iOS Developer** to design, develop, and maintain **iOS applications**. The ideal candidate should be passionate about mobile technologies and interest in building high-quality, user-friendly applications.

Key Responsibilities:

- Develop and maintain **iOS applications** using **Swift and Objective-C**.
- Collaborate with UI/UX designers to implement intuitive interfaces.
- Work with RESTful APIs for data exchange between mobile and backend.
- Debug and optimize applications for better performance.
- Publish and maintain apps on the **Apple App Store**.

Required Skills:

Proficiency in **Swift and Objective-C**.

Experience with **Xcode and iOS SDK**.

Knowledge of **MVVM architecture and Core Data**.

Familiarity with **third-party libraries (Alamofire, Firebase, etc.)**.

Strong debugging and problem-solving skills.

3 Android Developer

Location: Bangalore Office

Internship: Full-Time

Eligibility: M.E./M.Tech in Computer Science, Software Engineering, or a related field

Job Description:

We are looking for an **Android Developer** to build and maintain high-quality Android applications. The ideal candidate should be skilled in **Kotlin and Java** and have a deep understanding of Android frameworks.

Key Responsibilities:

- Develop and maintain **Android applications** using **Kotlin and Java**.
- Implement **clean architecture (MVVM, MVP)** for scalable development.
- Integrate REST APIs and third-party services (Firebase, Google APIs).

- Optimize app performance and handle different screen sizes.
- Deploy and manage apps on the **Google Play Store**.

Required Skills:

Strong knowledge of **Kotlin and Java**.

Experience with **Jetpack Components, Room DB, and Retrofit**.

Understanding of **Android SDK and UI design principles**.

Familiarity with **Gradle, Android Studio, and Firebase**.

Good debugging and problem-solving abilities.
