

MTECH INTERN – GLOBAL SUPPLY CHAIN ANALYTICS

DESCRIPTION:

Intern - Analytics

We are seeking a motivated and enthusiastic Data & Analytics Intern to join our dynamic team. This internship will provide you with the opportunity to gain hands-on experience in data analytics (BI, RPA and Data Science), emerging technologies, and collaborative projects. If you have a passion for data and a desire to learn, we want to hear from you!

RESPONSIBILITIES:

- Lead technical discussions for Analytics and IIoT projects as required
- Collaborate with stakeholders on data-driven projects and contribute innovative ideas.
- Stay updated with emerging technologies and trends in data analytics.
- Help prepare reports and presentations to communicate findings effectively.
- Participate in team meetings and contribute to discussions with insights and feedback

Profile:

- Projects or research papers in the field of IIoT or Data and Analytics
- Strong interest in supply chain and data and analytics, with a desire to learn and grow in this field.
- Technologically savvy with familiarity in emerging technologies.
- Consistent academic performance and active participation in co-curricular activities.
- Excellent communication skills, both written and verbal.
- A proactive attitude and eagerness to learn from experienced professionals.

What we Offer:

- Hands-on experience with data analytics in a real-world environment.
- Mentorship from experienced professionals in the field.
- Opportunity to work on impactful projects that contribute to the business.
- A collaborative and inclusive work culture that values innovation

Location: Bengaluru, KA
